

SKU: EXPO-CHANNEL-BOOTH

PRODUCT SPECIFICATIONS

The Expo Channel Back Booth features crisp vertical channels that introduce texture, structure, and a sense of rhythm to your seating layout. Ideal for contemporary restaurants, lounges, and fast-casual concepts, this design adds just the right amount of visual interest without overpowering the space. Precision-built in the USA with a commercial-grade hardwood frame and customizable upholstery options, this booth blends comfort with eye-catching detail. The vertical channels provide ergonomic support that patrons will appreciate.

Upholstered banquette seating with deep soft cushioned padding for the most comfort and support. Frame is made from solid wood. Cushions are made of high density CAL 117 certified foam. Super high-performance commercial grade vinyl featuring 500,000 double rubs, California and Boston fire codes certifications. Common applications in hospitality, healthcare, contract, education, marine and automotive industries.

Premium Formica® or Wilsonart® laminate wraps around the back and the base to create a beautiful and luxurious look. Laminate features stain, scratch and impact resistance. Our laminates are available in many finishes to match any decor.
