

SKU: PRESCO

#### PRODUCT SPECIFICATIONS

The Presco Booth is a true symbol of luxury and craftsmanship. Made in the USA, this model showcases a fully upholstered button-tufted back that elevates any restaurant interior with a timeless and elegant touch. What sets this design apart is the labor-intensive process behind every single button — each one is individually hand-pulled and precisely placed by skilled artisans, creating deep tufting that offers both visual depth and plush comfort. This level of detail can't be replicated by machines — it's an art form that demands patience and expertise. The result is a standout piece that brings sophistication to upscale dining environments. Built for durability with a reinforced internal frame, the Presco Restaurant Booth is more than just good looks. Whether you're designing a boutique bistro or a luxury hospitality space, this booth brings unparalleled style and quality to every seat.

We use only commercial grade vinyls and fabrics, with abrasive resistance of 500,000 double rubs. All upholstery is CAL 117 certified and designed specifically for applications such as restaurant, hospitality, contract, health care and education. Featuring a laminated finish, this table is thoroughly protected from heat, moisture and scratches. Footrest features a super-durable silver panel for feet support.
