

SKU: WAVE-HALF-CIRCLE

PRODUCT SPECIFICATIONS

Introducing the Wave Double Sided Curved Restaurant Seating Booth, the ultimate solution for optimizing space without compromising comfort or style. Crafted with innovation in mind, this meticulously designed booth features round radius seating on both sides, offering a contemporary twist to traditional restaurant seating arrangements. With its clever layout, this booth maximizes square footage, making it an ideal choice for restaurants, hotels, and various commercial spaces where efficient space utilization is paramount. The rounded seating not only enhances the aesthetic appeal but also fosters a cozy and intimate dining experience for patrons.

Constructed with high-quality materials and expert craftsmanship, this booth is built to withstand the rigors of daily use in bustling hospitality environments. Upholstered banquette seating with deep soft cushioned padding for the most comfort and support. Frame is made from solid wood. Cushions are made of high density CAL 117 certified foam. Super high-performance commercial grade vinyl featuring 500,000 double rubs, California and Boston fire codes certifications. Common applications in hospitality, healthcare, contract, education, marine and automotive industries.
